

Reading Review

-Parts 1 and 4 are similar. In both parts, you spend 80% of your time in the first section and 20% in the other.

-Part 2 is the only part where you see the passage (picture) first. When you read later, you narrow down the possible places in the picture (using the keywords around the blank) and then look at the answers.

-Part 3's imagination will help you remember everything!

-Part 4's vocab will challenge you!

-Remember, part 4 is always a debate. That is the most important thing to understand!

-Relate with both sides in part 4 to get more emotionally involved and become more mindful of the topic!

-Continuous practice strategies?

Let's make your results shine!
